

Lawn Grasses For Queensland

Queensland Blue Couch

Queensland Blue Couch is by name and by nature, ideally suited to the climate of Queensland. This variety thrives in full sun and is highly tolerant of heat and humidity. While it is sensitive to drought conditions, it has a rapid recovery rate. Queensland Blue Couch is a very popular turf variety for households, mainly due to being one of the lowest maintenance lawn varieties around.

Sowing Rate - 6-8kg/ 1000m²
Mowing Interval - 10 - 20 days
Fertiliser Requirement - Low - Moderate
Irrigation Requirement - Low - Moderate

Bermuda Couch

Bermuda Couch or Green Couch is possibly the most commonly planted lawn grass species. Its general purpose adaptability and speed of establishment means that the results are seen quickly compared with other lawn grasses. Under tropical growing conditions and acid soils, the persistence and performance of Bermuda Couch slowly declines.

Sowing Rate - 4-6kg/1000m²
Mowing Interval - 7-21 days
Fertiliser Requirements - Moderate - High
Irrigation Requirements - Moderate

Narrow Leaf Carpet Grass

Narrow Leaf Carpet Grass is well suited to tropical and sub tropical growing environments. Its broadleaf makes for an eye catching lawn particularly in areas with consistent moist soils (but not heavily waterlogged) and shady areas.

Sowing Rate - 3-5kg/1000m²
Mowing Interval - 14-28days
Fertiliser Requirement - Moderate
Irrigation Requirement - Moderate

Argentine Bahia

Argentine Bahia is the true lawn grass for the tropical regions of Queensland and the Northern Territory. Its low maintenance requirement makes it ideal for parks and gardens, sporting fields and the backyard. To add to the appeal of this hard wearing lawn species, it can double as an excellent horse pasture grass, providing presentation with productivity.

Sowing Rate— 3-5kg/ 1000m²
Mowing Interval - 14-28 days
Fertiliser Requirement - Moderate
Irrigation Requirement - Moderate

Southedge Seeds Lawn Mixes

Wet Coast Lawn Mix

35% Argentine Bahia
 20% Bermuda Couch
 20% Carpet Grass
 25% Japanese Millet

Sowing Rate - 10kg/1000m²

Presentation Plus Lawn Mix

50% Qld Blue Couch
 25% Bermuda Couch
 25% Japanese Millet

Sowing Rate - 10kg/1000m²

Shady Lawn Mix

25% Qld Blue Couch
 35% Carpet Grass
 15% Bermuda Couch
 25% Japanese Millet

Sowing Rate - 8kg/1000m²

Low Maintenance Lawn Mix

40% Argentine Bahia
 35% Qld Blue Couch
 25% Japanese Millet

Sowing Rate—8kg/1000m²
